

SEISMIC SWITCH, INC.

Introducing our new
ELECTRONIC EARTHQUAKE DETECTOR

For 33 years Seismic Switch Inc., has set the industry standard in elevator seismic ground motion detectors with the reliable Model CHV-1 and our electronic Model CHV-2. We are pleased to announce the CHV-2 is now U.L. listed.

Model CHV-2

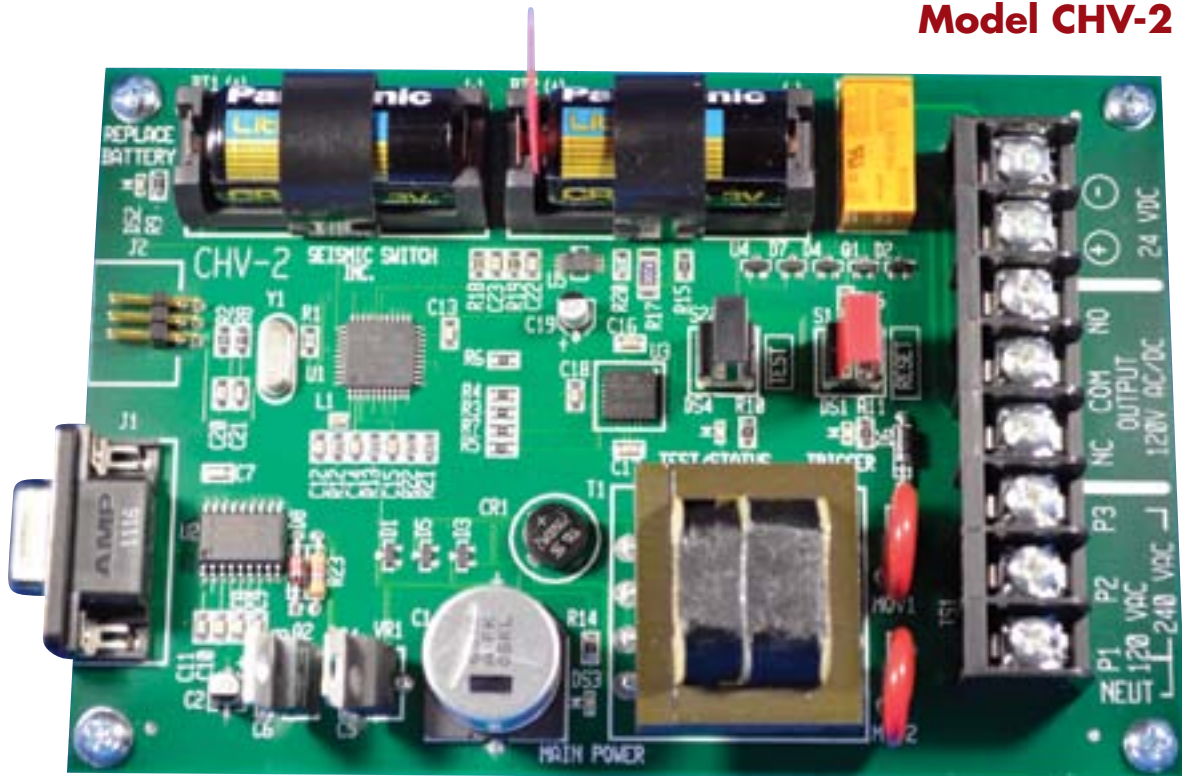

Made in USA

- Fail-safe operation – any malfunction indicates trigger; no “dead detector” problems
- Most economical Seismic Switch on the market
- Includes built in battery backup and latching earthquake memory
- Customized trigger thresholds available for special needs and other countries
- Simple, quick and easy installation
- No special wire or cables needed
- No calibration ever required
- U.L. 508 listed Industrial Control Switch (File E350688)

SEISMIC SWITCH, INC.

2125 Magnolia Avenue, Petaluma, CA 94952 • Tel (707) 763-9993 • Fax (707) 763-9994
e-mail: seismic@seismicswitchinc.com • website: www.seismicswitchinc.com

Model CHV-2

Made in USA

- Most advanced – MEMS style triple axis accelerometer with digital interface. Made by one of the world's top 5 semi-conductor companies
- Sophisticated custom software
- 120 VAC, 240 VAC, 50 or 60 HZ and 24 VDC inputs
- 120 Volt output, 0.6 amp, AC or DC, 30 Volt DC output, 2 amp
- Indicator lights for power, low battery, trigger and test
- Minimum 100 hour battery life in power failure
- Easy to replace and inexpensive long life lithium batteries
- Multi-layer board is 4" x 6"
- Box is 6" x 8" x 3"
- Weight = 3 lbs
